

***“Communion will never be the same again!”***  
***“This is one of the most meaningful programs I have seen!”***

**Pastor, are you looking for a special teaching to help your people better understand and appreciate the ordinance of communion? Then you need to schedule a *“Christ in the Passover”* program for your church.**

**“Christ in the Passover”** is a 45-minute sermonic demonstration giving insight into what happened in the Upper Room as Jesus ate the Last Supper with His disciples. The speaker will explain the different items of the Passover service and give special emphasis to how they relate to the New Testament account of that last Passover Jesus ate with His disciples. The program will provide insight into the origin of the “bread” and “cup” in the communion service. An often-heard comment after the program is, “Communion will never be the same again.”

The staff of Light To Israel Ministries is available to come to your church on a love-offering basis. Our speakers have presented this program in hundreds of churches across United States and Canada over the last thirty years.
